Commissioner for Patents

The amendment document filed on December 7, 2007 (see page 2) is considered non-compliant because it has failed to meet the requirements of 37 C.F.R. 1.121. In order for the amendment document to be compliant, correction of the following items is required.

1) A complete listing of all of the claims is not present.

2) Amendments to a claim must be made by rewriting the entire claim with all changes (e.g., additions and deletions) as required by 37 C.F.R. 1.121 (c), except when the claim is being canceled. Each amendment document that includes a change to an existing claim, cancellation of an existing claim or addition of a new claim, must include a complete listing of all claims ever presented, including the text of all pending and withdrawn claims, in the application. The claim listing, including the text of the claims, in the amendment document will serve to replace all prior versions of the claims, in the application. In the claim listing, the status of every claim must be indicated after its claim number by using one of the following identifiers in a parenthetical expression: (Original), (Currently amended), (Canceled), (Withdrawn), (Previously presented), (New), and (Not entered).

3) All claims being currently amended in an amendment paper shall be presented in the claim listing, indicate a status of "currently amended," and be submitted with markings to indicate the changes that have been made relative to the immediate prior version of the claims. The text of any added subject matter must be shown by underlining the added text. The text of any deleted matter must be shown by strike-through except that double brackets placed before and after the deleted characters may be used to show deletion of five or fewer consecutive characters. The text of any deleted subject matter must be shown by being placed within double brackets if strike-through cannot be easily perceived. Only claims having the status of "currently amended," or "withdrawn" if also being amended, shall include markings. If a withdrawn claim is currently amended, its status in the claim listing may be identified as "withdrawn—currently amended." See 37 C.F.R. 1.121 (c) (2).

Please refer to the entire rule 37 C.F.R. 1.121 for further details on the proper manner of making amendments.

Applicant is given one month, or thirty (30) days, whichever is longer, from the mail date of this notice to supply the correction. The correction required is only the corrected section of the non-compliant amendment in compliance with 37 CFR 1.121. Extensions of time are available under 37 CFR 1.136(a) only if the non-compliant amendment is a non-final amendment or an amendment filed in response to a Quayle action. Failure to timely response will result in Abandonment of the application if the non-compliant amendment is a non-final amendment or an amendment filed in response to a Quayle action or Non-entry of the amendment if the non-compliant amendment is a preliminary amendment or supplemental amendment.
